NOTE: Mr. Diggs request literally would cover all Agency

STATINTL programs in [REDACTED] beyond existing Congressional guidelines. — Moreover, since the "reports" he has requested are to be sent to his Congressional office, we could consider this as personal request, not for Subcommittee on Africa which he chairs —

The attached reply for your signature offering substantive intell briefings, may not be acceptable, but at least it is a positive reply — let's hold off negative reply.

COORDINATED WITH (list names as well as offices): *we need better [REDACTED] recourse. I don't believe at this point.*
